About this report

This report opens with your career options, then the evidence behind them.

YOUR CURRENT DEGREE

Bachelor of Computer Science (Artificial Intelligence and Big Data)

CAREER FIT

Does the career suit you?

Fit shows how well a career matches your interests, values and preferred working conditions.

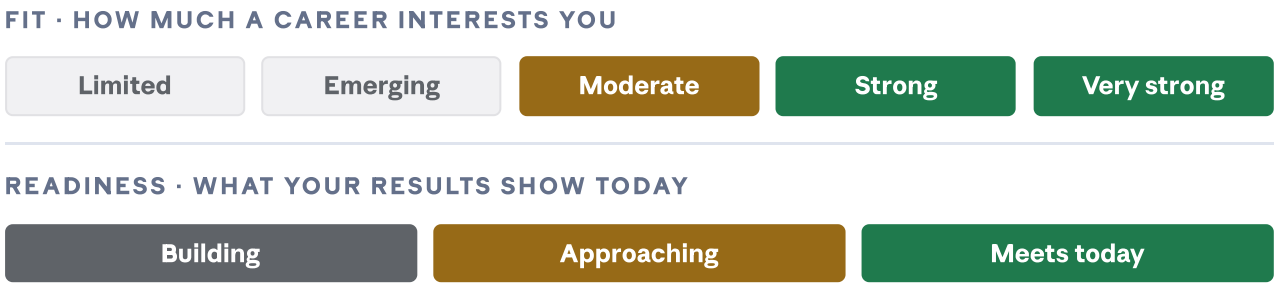

CURRENT READINESS

What do your results show?

Readiness shows how closely your capabilities and behaviour match the career today.

How results are shown

Results are shown in clear bands instead of percentage scores.

Fit and readiness are shown separately. Readiness reflects assessment evidence, not qualification or licence eligibility. Check the separate education and licensing requirements for each career.

Your nine careers

Across, how well each career matches you. Up, how ready your results show you are for it today. Colours identify the three career groups.

Business, Strategy & Consulting	pp. 5-8	Technology, Software & Digital Systems	pp. 9-12	Data, Analytics & Research	pp. 13-16
1 Management Analyst	p. 6	4 IT Business Analyst	p. 10	7 Machine Learning Engineer	p. 14
2 Operations Analyst	p. 7	5 Data Engineer	p. 11	8 Business Intelligence Analyst	p. 15
3 Operations Coordinator	p. 8	6 Product Manager	p. 12	9 Data Analyst	p. 16

Shaded cell: meets the assessment readiness criteria.

Matching: Fit uses your interests, values and working conditions. Readiness uses your capabilities and behaviour. The two results are shown separately. Page 17 explains how these careers were chosen, and pages 18 to 21 show the evidence behind them.

Business, Strategy & Consulting

Strategy work turns messy situations into clear options, trade-offs and plans people can execute.

Your strongest career group

01

About this group of careers

Consulting firms, corporate strategy teams, startups, family businesses and public-sector programmes.

Problems this work solves

- Working out what is really going wrong in an organisation
- Laying out the realistic options and their trade-offs
- Deciding what happens first, and who does it

Help organisations choose — and act — well.

Career outlook

Much of the value is careful listening, structured thinking and follow-through — not dramatic ideas.

Career information compiled September 2026. UAE salary ranges are indicative — check current listings.

THE THREE CAREERS AHEAD

Different ways to work in this field. Careers on the same evidence band are listed by typical income.

Management Analyst

Conduct organizational studies and evaluations, design systems and…

PAGE 6

Operations Analyst

Optimizes business operations by analyzing workflows, identifying…

PAGE 7

Coordinates day-to-day work schedules and the movement of materials between…

PAGE 8

BUSINESS, STRATEGY & CONSULTING · CAREER 1 OF 3

Management Analyst

Fit · Very strong

Readiness · Building

Also hired as: Business Consultant

The work

Conduct organizational studies and evaluations, design systems and procedures, conduct work simplification and measurement studies, and prepare operations and procedures manuals to assist management in operating more efficiently and effectively.

Why readiness is Building: **Capabilities: Building. Behaviour: Building. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

VALUES
Produces relationships and independence (p. 21).

ENVIRONMENT
Usually involves collaboration intensity, pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2
Junior Management Analyst
→
YEARS 3-5
Management Analyst
→
YEARS 6-10
Senior Management Consultant

Who hires: Management analysts are employed by consulting firms, corporations, government agencies, and non-profits globally, including sectors like finance, healthcare, and technology in the UAE.
From your degree: Added step needed · Add a portfolio of business planning and performance analysis projects to your degree. Use it to pursue junior analyst roles in management analysis or business planning teams at UAE corporate groups.
Related careers: Business Consultant, Project Manager, Operations Manager

TYPICAL PAY

UAE figure not yet available

BUSINESS, STRATEGY & CONSULTING · CAREER 2 OF 3

Operations Analyst

Fit · Strong

Readiness · Building

Also hired as: Business Operations Analyst

The work

Optimizes business operations by analyzing workflows, identifying inefficiencies, and implementing process improvements using data-driven approaches.

Why readiness is Building: **Capabilities: Building. Behaviour: Building. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

VALUES
Produces independence (p. 21).

ENVIRONMENT
Usually involves collaboration intensity, pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2
Junior Operations Analyst
→
YEARS 3-5
Operations Analyst
→
YEARS 6-8
Senior Operations Analyst

Who hires: Companies in finance, logistics, manufacturing, and technology hire operations analysts globally; in the UAE, sectors like oil and gas, retail, and government also seek this role.
From your degree: Added step needed · Build on your degree with a portfolio analysing service and delivery performance, including practical improvement proposals. Seek an operations analytics internship with a UAE company to prepare for operations analyst roles.
Related careers: Data Analyst, Business Analyst, Project Manager

TYPICAL PAY

About AED 9,800 a month

BUSINESS, STRATEGY & CONSULTING · CAREER 3 OF 3

Operations Coordinator

Fit · Strong | Readiness · Building

Also hired as: Operations Associate

The work

Coordinates day-to-day work schedules and the movement of materials between teams. Tracks progress, maintains operational records, and works with colleagues and suppliers to resolve delays.

Why readiness is Building: **Capabilities: Building. Behaviour: Building. Requires adaptability / flexibility and attention to detail.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility and attention to detail (p. 20).

VALUES
Produces independence and relationships (p. 21).

ENVIRONMENT
Usually involves collaboration intensity, pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2
Operations Assistant
→
YEARS 3-5
Operations Coordinator
→
YEARS 6-8
Operations Manager

Who hires: Companies in logistics, manufacturing, healthcare, and retail hire operations coordinators globally, including UAE-specific sectors like tourism and construction.
From your degree: Added step needed · Add a portfolio of scheduling, workflow tracking and operational reporting to your degree projects. Use it to pursue operations coordinator roles in UAE company head offices or free-zone service businesses.
Related careers: Project Manager, Supply Chain Analyst, Operations Manager

TYPICAL PAY

About AED 3,500 a month

Technology, Software & Digital Systems

This field turns needs into software, interfaces, databases and connected systems.

Strong alternative

02

About this group of careers

Product companies, IT services, startups, internal technology teams and independent practice.

Problems this work solves

- Turning what people need into software that works
- Keeping systems reliable and secure as they grow
- Making complicated tools simple enough to use

Build tools people can trust and use.

Career outlook

Debugging, documentation and maintenance often take more time than the first build.

Career information compiled September 2026. UAE salary ranges are indicative — check current listings.

THE THREE CAREERS AHEAD

Different ways to work in this field. Careers on the same evidence band are listed by typical income.

IT Business Analyst

Product Manager

Defines product strategy, prioritizes features, and coordinates…

PAGE 12

TECHNOLOGY, SOFTWARE & DIGITAL SYSTEMS · CAREER 1 OF 3

IT Business Analyst

Fit · Very strong

Readiness · Building

Also hired as: Systems Analyst

The work

Analyze science, engineering, business, and other data processing problems to develop and implement solutions to complex applications problems, system administration issues, or network concerns.

Why readiness is Building: **Capabilities: Building. Behaviour: Building. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

VALUES
Produces independence (p. 21).

ENVIRONMENT
Usually involves collaboration intensity, pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2
Junior IT Business Analyst
→
YEARS 3-5
IT Business Analyst
→
YEARS 6-8
Senior IT Business Analyst

Who hires: IT business analysts are employed by tech companies, consulting firms, financial institutions, and government agencies worldwide, including in the UAE.
From your degree: Added step needed · Add a portfolio of business requirements, process maps and technology specifications to your degree projects. Seek a junior business analyst placement at a UAE bank, airline or government entity to develop towards IT business analysis.
Related careers: Business Systems Analyst, Project Manager, Data Analyst

TYPICAL PAY

About AED 10,100 a month

TECHNOLOGY, SOFTWARE & DIGITAL SYSTEMS · CAREER 2 OF 3

Data Engineer

Fit · Very strong

Readiness · Building

Also hired as: Big Data Engineer

Potential essential-value shortfall: verify through research or work exposure.

The work

Builds and maintains data pipelines, warehouses, and infrastructure that enable organizations to collect, store, and analyze large-scale data.

Why readiness is Building: **Capabilities: Building. Behaviour: Building. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

VALUES
Produces independence (p. 21).

ENVIRONMENT
Usually involves collaboration intensity, pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2 **Junior Data Engineer** → YEARS 3-5 **Data Engineer** → YEARS 6-10 **Senior Data Engineer**

Who hires: Tech companies, financial institutions, healthcare organizations, and government agencies hire data engineers globally and in the UAE.
From your degree: Direct route · Data engineering is a common destination from your degree. Build data pipelines in your capstone and seek a data engineering internship with a UAE bank, retail group or government analytics unit.
Related careers: Data Analyst, Data Scientist, Database Administrator

TYPICAL PAY

About AED 9,400 a month

TECHNOLOGY, SOFTWARE & DIGITAL SYSTEMS · CAREER 3 OF 3

Product Manager

Fit · Moderate | Readiness · Building

Also hired as: Product Owner

The work

Defines product strategy, prioritizes features, and coordinates cross-functional teams to deliver digital products that meet user needs and business goals.

Why readiness is Building: **Capabilities: Building. Uses oral communication judgment. Behaviour: Building. Requires adaptability / flexibility and attention to detail.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Uses oral communication judgment (p. 19).

BEHAVIOUR
Requires adaptability / flexibility and attention to detail (p. 20).

VALUES
Produces independence and relationships (p. 21).

ENVIRONMENT
Usually involves collaboration intensity, audience and public communication (p. 21).

CAREER INFORMATION

YEARS 0-2 **Junior Product Manager** → YEARS 3-5 **Product Manager** → YEARS 6-10 **Senior Product Manager**

Who hires: Companies in technology, retail, finance, and healthcare hire product managers globally; in the UAE, sectors like e-commerce and fintech are also prominent.
From your degree: Added step needed · Build on your degree with a portfolio showing user research, product priorities and success metrics for a digital product. Target associate product manager roles at UAE technology companies or bank digital units.
Related careers: Project Manager, Business Analyst, Marketing Manager

TYPICAL PAY

About AED 8,900 a month

Data, Analytics & Research

People in this field investigate questions, organise evidence, build models and explain what the patterns mean.

Worth investigating

03

About this group of careers

Technology, consulting, finance, public policy, retail, research, healthcare and social impact.

Problems this work solves

- Working out what is actually happening, from messy data
- Testing why it happened, and what is likely to happen next
- Showing decision-makers what the evidence does and does not support

Turn information into better decisions.

Career outlook

Much of the work involves cleaning, checking and revising — not only finding dramatic insights.

Career information compiled September 2026. UAE salary ranges are indicative — check current listings.

THE THREE CAREERS AHEAD

Different ways to work in this field. Careers on the same evidence band are listed by typical income.

Machine Learning Engineer

Develops, trains, and deploys machine learning models and AI systems that…

PAGE 16

DATA, ANALYTICS & RESEARCH · CAREER 1 OF 3

Machine Learning Engineer

Fit · Strong

Readiness · Building

Also hired as: Artificial Intelligence Engineer

Potential essential-value shortfall: verify through research or work exposure.

The work

Develops, trains, and deploys machine learning models and AI systems that automate decisions, generate content, or extract insights from data.

Why readiness is Building: **Capabilities: Approaching. Behaviour: Building. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

VALUES
Some alignment with this career (p. 21).

ENVIRONMENT
Usually involves pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2
Junior Machine Learning Engineer
→
YEARS 3-5
Machine Learning Engineer
→
YEARS 6-10
Senior Machine Learning Engineer

Who hires: Tech companies, research institutions, financial services, healthcare organizations, and automotive industries hire machine learning engineers globally and in the UAE.
From your degree: Added step needed · Build on your degree with a portfolio of deployed machine learning models, including testing and monitoring. Use this evidence of engineering practice to pursue junior ML engineer roles with UAE employers.
Related careers: Data Scientist, AI Researcher, Software Engineer

TYPICAL PAY

About AED 12,400 a month

DATA, ANALYTICS & RESEARCH · CAREER 2 OF 3

Business Intelligence Analyst

Fit · Strong

Readiness · Building

Also hired as: Business Intelligence Developer

Potential essential-value shortfall: verify through research or work exposure.

The work

Transforms raw data into actionable business insights using BI tools like Power BI, Tableau, and SQL to support strategic decision-making.

Why readiness is Building: **Capabilities: Building. Behaviour: Approaching. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

Usually involves collaboration intensity, pace and deadline intensity (p. 21).

CAREER INFORMATION

YEARS 0-2
Junior Business Intelligence Analyst
→
YEARS 3-5
Business Intelligence Analyst
→
YEARS 6-8
Senior Business Intelligence Analyst

Who hires: Companies in technology, finance, healthcare, and retail sectors hire Business Intelligence Analysts globally, including firms in the UAE.
From your degree: Direct route · Business intelligence is a common destination from your degree. Build reporting dashboards in your capstone and pursue a reporting internship with a UAE corporate group.
Related careers: Data Analyst, Business Analyst, Data Scientist

TYPICAL PAY

About AED 10,300 a month

DATA, ANALYTICS & RESEARCH · CAREER 3 OF 3

Data Analyst

Fit · Strong

Readiness · Building

Also hired as: Business Data Analyst

Potential essential-value shortfall: verify through research or work exposure.

The work

Collects, cleans, and analyzes datasets to identify trends and insights, creating dashboards and reports that drive data-informed business decisions.

Why readiness is Building: **Capabilities: Building. Behaviour: Building. Requires adaptability / flexibility.** Readiness reflects capability and behaviour evidence only.

YOUR RESULTS AND THIS CAREER

INTERESTS
Strong match with Investigating and Organising (p. 18).

CAPABILITIES
Some alignment with this career (p. 19).

BEHAVIOUR
Requires adaptability / flexibility (p. 20).

VALUES
Some alignment with this career (p. 21).

ENVIRONMENT
Usually involves pace and deadline intensity (p. 21).

Senior Data Analyst

Who hires: Companies in tech, finance, healthcare, and retail hire data analysts globally; in the UAE, sectors like e-commerce and government also seek this role.
From your degree: Direct route · Data analysis is a common destination from your degree. Use analytics projects and an internship at a UAE bank, retail group or government analytics unit to prepare for junior data analyst roles.
Related careers: Data Scientist, Business Analyst, Data Engineer

TYPICAL PAY

About AED 5,900 a month

How these careers were chosen

Five areas were scored separately, then matched to what each career actually involves.

STEP 1

You answered the assessment

Your 108 responses were grouped into the five areas below. Each area is scored on its own.

STEP 2

Only careers your degree leads to were considered

Only the careers mapped to Bachelor of Computer Science (Artificial Intelligence and Big Data) were considered. Each was compared with your five areas using the tasks, skills and working conditions recorded in O*NET 30.1 and ISCO-08.

STEP 3

The three strongest groups are shown

The nine careers where the pattern repeated most were grouped into the three strongest related groups and reported as bands.

The five areas your results come from

Each area is reported on its own page, from page 18 onwards.

INTERESTS
What kinds of activities and problems tend to energise you?

CAPABILITIES
What kinds of thinking currently come more naturally, and what can grow?

BEHAVIOUR
How do you tend to organise, persist, collaborate and respond?

VALUES
What do you want work to give you or allow you to contribute?

WORKING CONDITIONS
In what pace, structure and social setting are you comfortable today?

Where the career information comes from

O*NET 30.1 · the tasks, skills, knowledge and work conditions recorded for each occupation. Your five areas are matched against these profiles.
ISCO-08 · the international occupation classification used to name the careers and group them into related fields.
Degree pathways · The reviewed mapping from your degree to the careers it leads to, and the step each one takes from it.

CONSISTENT RESPONSES

No unusual response pattern was detected.

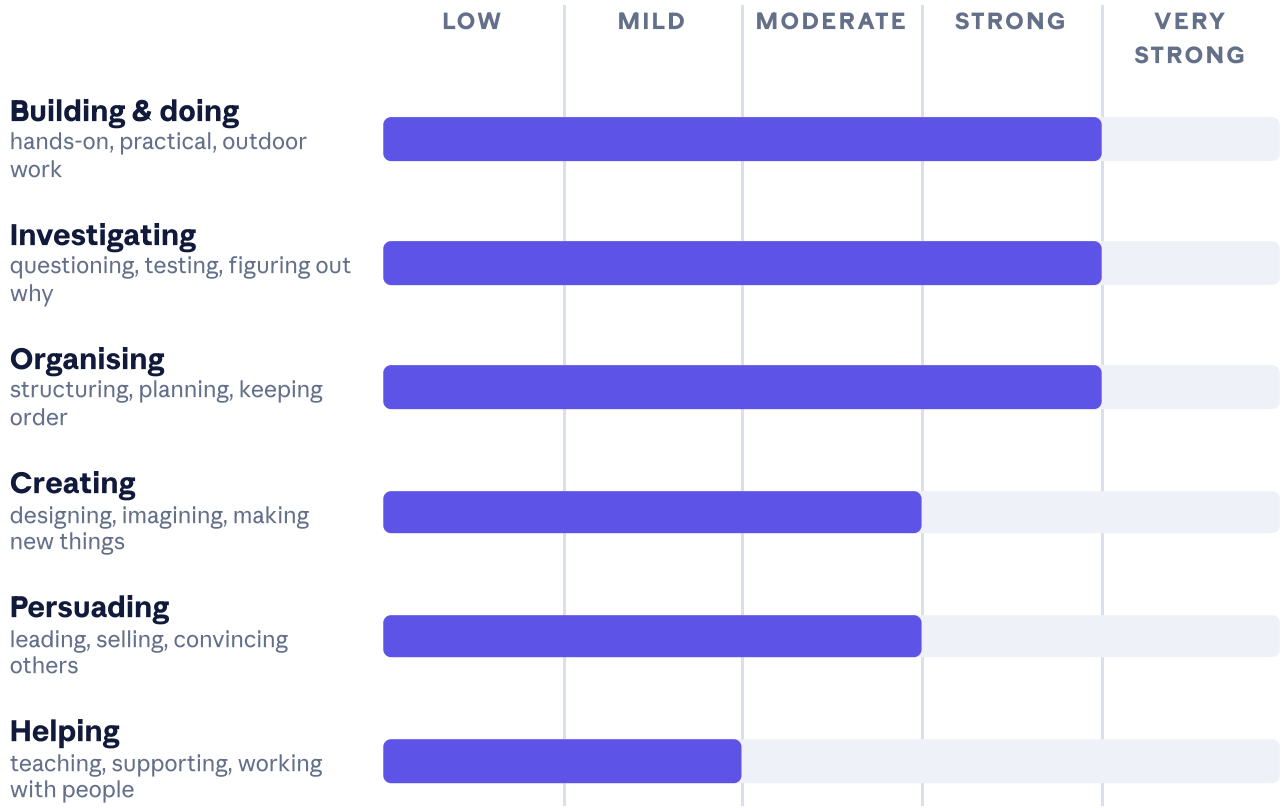

INTERPRETATION CONFIDENCE

Several areas of evidence point in similar directions.

Your interest profile

Your strongest interests are Building & doing and Investigating.

You prefer work that involves building and fixing real things and understanding problems. This combination shaped which fields and careers appear in this report. Creating and Persuading are moderate interests. Helping is lower.

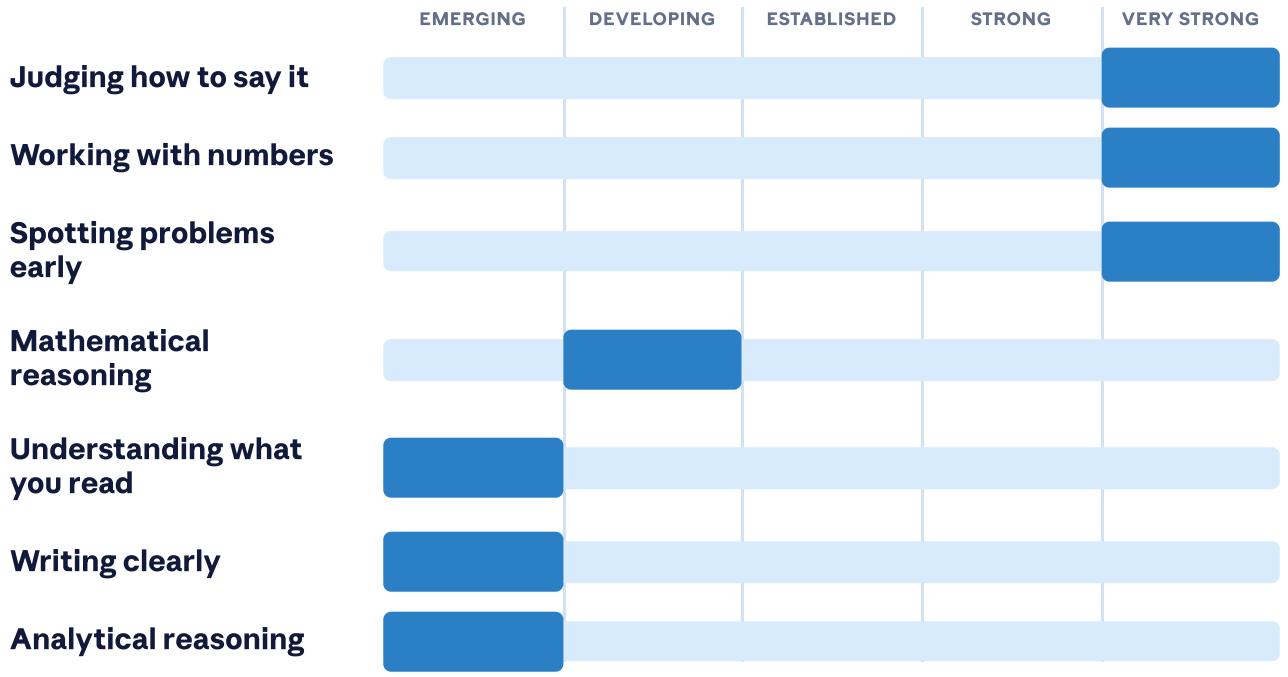

KEY TAKEAWAY

Interests can change over time. Review this profile again after your next internship or live project.

Your capabilities

Judging how to say it, working with numbers and spotting problems early are your three strongest areas.

You worked well with explaining ideas, numbers and spotting problems. These are current, task-specific strengths, not an intelligence label. Analytical reasoning and writing clearly can improve with practice, teaching quality and familiarity.

Your behaviour

Your strongest work habits are adaptability and attention to detail.

You made effective choices in three of seven workplace situations. This shows that you usually respond thoughtfully and responsibly. You can keep developing working with others, staying steady under pressure and taking charge.

Adaptability	Rarely · Sometimes · **Often**	You adjusted your approach when the situation changed.
Attention to detail	Rarely · Sometimes · **Often**	You tend to check work carefully and notice mismatches others may miss.
Initiative	Rarely · **Sometimes** · Often	You tend to start useful work without waiting to be asked.
Persistence	Rarely · **Sometimes** · Often	Breaking long tasks into visible milestones makes staying power much easier.
Leading others	Rarely · **Sometimes** · Often	Leading one small, low-stakes activity per term is the most reliable way to build this.
Staying steady under pressure	**Rarely** · Sometimes · Often	Practising under mild, planned pressure — timed drills, mock presentations — grows this safely.
Working with others	**Rarely** · Sometimes · Often	Asking one clarifying question per group task builds smoother collaboration.

Behaviour can improve with practice.

What you want from work

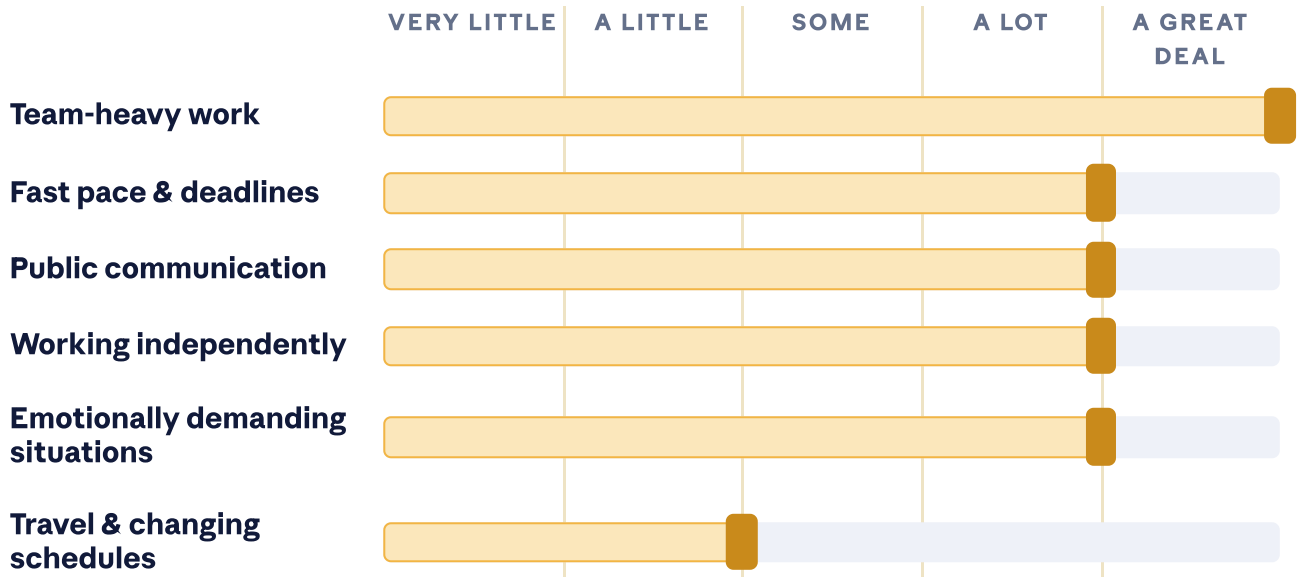

You value being recognised and deciding how you work.

Recognition is essential to you. Independence is important to you.

Recognition	Moderate · Important · **Essential**	It helps when good work is noticed and can lead somewhere.
Independence	Moderate · **Important** · Essential	You prefer room to decide how your own work gets done.
Working relationships	Moderate · **Important** · Essential	Friendly, respectful colleagues make work worthwhile for you.
Supportive management · Achievement · Good working conditions	Moderate · **Important** · Essential	These matter to you, but less than the ones above.

Your environment

You are comfortable working closely in teams and working at pace. You prefer less travel and changing schedules.

Next steps

Use this report to decide your electives, your specialisation and where to spend your next internship.

Your strongest options are in Business, Strategy & Consulting and Technology, Software & Digital Systems.

STEP 1

Explore two careers

Start with Management Analyst and Data Engineer. Review the work and the route each one takes from your degree.

STEP 2

Discuss the report

Read the report with your faculty adviser and your placement or careers cell. Discuss your interests, capabilities and any notes shown on the career pages.

STEP 3

Plan this semester

Your degree is a base to build on. Electives, a specialisation, an internship and one finished project change what it leads to more than any further reading. Review your interests and capabilities again before your placement season.

How to use the results

Results are shown in bands because the assessment supports broad levels, not exact percentage matches. Careers with similar results are shown together instead of being given an artificial ranking.

For the faculty adviser or placement cell: Fit and readiness are reported separately. Career descriptions use O*NET 30.1 and ISCO-08. Typical pay is shown as averages of reported salaries, converted to a rounded monthly figure, from PayScale UAE, Indeed UAE. The statistic, sample size, source role and edition behind each figure are kept on record and are not an entry-level or later-career guarantee. Missing figures remain unavailable. Hiring sectors and progression stages are indicative guidance generated for this report. Check current listings and education or licensing requirements, and discuss the results with your faculty adviser or placement cell.
